PROFESSIONAL SUMMARY

Visionary Director of Digital Health and Health Equity Program Leader with a deep personal and professional commitment to making world-class healthcare accessible to underserved communities globally. Founder of Trimacare — a multilingual, culturally inclusive pregnancy lifestyle platform built on the principle that a healthy pregnancy is a fundamental human right, not a luxury. Brings a systems-thinking approach, executive leadership capability, and cross-cultural fluency to digital health program development, health equity strategy, and community-centered care platform design. Experienced in navigating complex multi-stakeholder environments, building technology products from the ground up, and directing programs that center cultural competency and community at their core.

CORE COMPETENCIES

- Digital Health Strategy | Health Equity Leadership | Maternal + Prenatal Health
- Program Design + Management | Strategic Partnerships | Executive Stakeholder Engagement
- Cultural Competency | Multilingual Health Content | Community Health Programming
- Social Determinants of Health | Health Disparities | Global Health Accessibility
- Product Vision + Roadmap | Technology Leadership | Mobile Health (mHealth)
- HIPAA Compliance Awareness | Clinical Partnership Development | Research Translation
- Team Building + Leadership | Grant + Funding Strategy | Health Tech Go-to-Market
- Financial Management (BSc Accounting) | Budget Development | P&L Awareness

PROFESSIONAL EXPERIENCE

Founder + CEO — Digital Health Platform *Trimacare* —

Roxbury, MA | 2026 – Present

Founded and lead Trimacare, the world's premier pregnancy lifestyle platform. Mission: make world-class prenatal and postpartum care accessible to every expecting family on Earth regardless of culture, language, geography, or socioeconomic status. Currently building a full-featured platform to close the gap between clinical excellence and cultural wisdom in maternal health.

- Developed the complete strategic vision, mission framework, and platform architecture for a globally accessible maternal health platform addressing documented gaps in culturally competent prenatal care
- Designed a 6-layer platform model addressing the full maternal health journey: clinical tracking, cultural wisdom content library, multilingual community platform, AI-driven personalized care plans, postpartum support module, and partner engagement tools
- Identified and is actively addressing a critical health equity gap: the absence of culturally competent, multilingual prenatal care platforms serving Black, immigrant, and indigenous communities globally
- Established clinical advisory partnership with a physician at Brigham and Women's Hospital (one of the world's leading maternal health institutions) to ensure product clinical accuracy, safety, and institutional credibility
- Building platform in 8 languages (Igbo, English, Spanish, Portuguese, Haitian Creole, German, Japanese, Mandarin) to serve globally underrepresented communities from launch
- Leads all technology development, product strategy, and program planning on a 12-month development roadmap

Senior Project Manager | Program Lead *Temple University — Philadelphia,*

PA | 2023 – 2024

- Managed healthcare facility design and visualization for College of Public Health donor study — demonstrating strong understanding of healthcare space programming and patient-centered design principles
- Directed a long-range institutional development program spanning 14 years and 7 development sites, demonstrating program leadership at institutional scale
- Led complex multi-stakeholder presentations for institutional leadership, demonstrating executive communication and program advocacy capability

Operations + Business Development Director, *Utonix Nigeria Limited —*

Nigeria / United States | 2015 – Present

- Directed compliance operations for a multi-country consumer goods distribution network spanning West Africa and beyond

- Implemented process improvement programs and staff training across a multi-geography operation
- Managed international logistics coordination across multiple countries

ENTREPRENEURIAL HIGHLIGHTS
